WELCOME TO WOMEN'S HEALTH CARE ASSOCIATES, P.C.

**IT IS OUR GOAL TO OFFER YOU THE BEST MEDICAL CARE AVAILABLE,
IN A WARM AND CARING ENVIRONMENT.**

To achieve this goal and make your experience in our office a pleasant one, please bring the following to your appointment:

- 1. These completed New Patient Forms-**
 - a. Family History Questionnaire...**
 - b. New Patient Health History**
 - c. New Patient Information Insert**
- 2. Your Driver's License or other picture ID**
- 3. Your insurance card**
- 4. Pertinent records if you've been referred by another physician**

Please check your insurance company to see if we are a provider for you. Calling your insurance company or checking their internet site may give more accurate results than an outdated provider manual. Due to the large number of insurance companies that we participate in, we cannot know without seeing your insurance card if we participate in that particular insurance. You can also check on the OB/GYN Affiliates web site - www.obga.net for the most current insurance company list.

If you are being referred to our office for a particular problem, please bring a copy of your pertinent medical records with you for your visit. It has been our experience that even though you have requested records, they often have not been received before your appointment. This can cause needless delay and possibly the rescheduling of your appointment. You are responsible for providing those records to us. Use the records release form available on our website - www.whcawomencaringforwomen.com.

Please arrive for your appointment 30 minutes in advance of the scheduled time. This will allow us time to input all of your insurance and personal information into the computer system, set up your chart, and get you ready for your visit.

Because of the nature of our OB/GYN practice, there may be circumstances that cause the doctor to be delayed or have to leave the office. We will make every effort to notify you if this occurs, however, it is not always possible and we apologize for the inconvenience this may cause

If you have any questions, please call us at: 303-795-0890. Thank you, and Welcome!
We look forward to seeing you!
